

Product Brief

Cashier Call Boxes

POS and Service Counters Storewide
Assistance Requests at the Press of a Button

Unique Features • Versatile • Discreet • Compact • Wireless

call-systems
technology

The Cashier Call Boxes enables cashiers to instantly and discreetly summon assistance with the quick press of a button. If assistance is not prompt, urgent escalation messages route to the same and/or other store personnel.

Rugged, compact and completely wireless, the Cashier Call Boxes will mount anywhere. It can even trigger recorded promotional messages such as: "Hot French bread now coming out of our bakery oven!"

Key Features • Versatile - from Service Assistance to Promotional Messaging

Speed checkout line with prompt support to cashiers, trigger overhead promotional announcements, summon department personnel for go backs, and many other message triggering applications

• Adaptable

Each button triggers unique text or audio messaging to one or more destinations; custom button labelling available

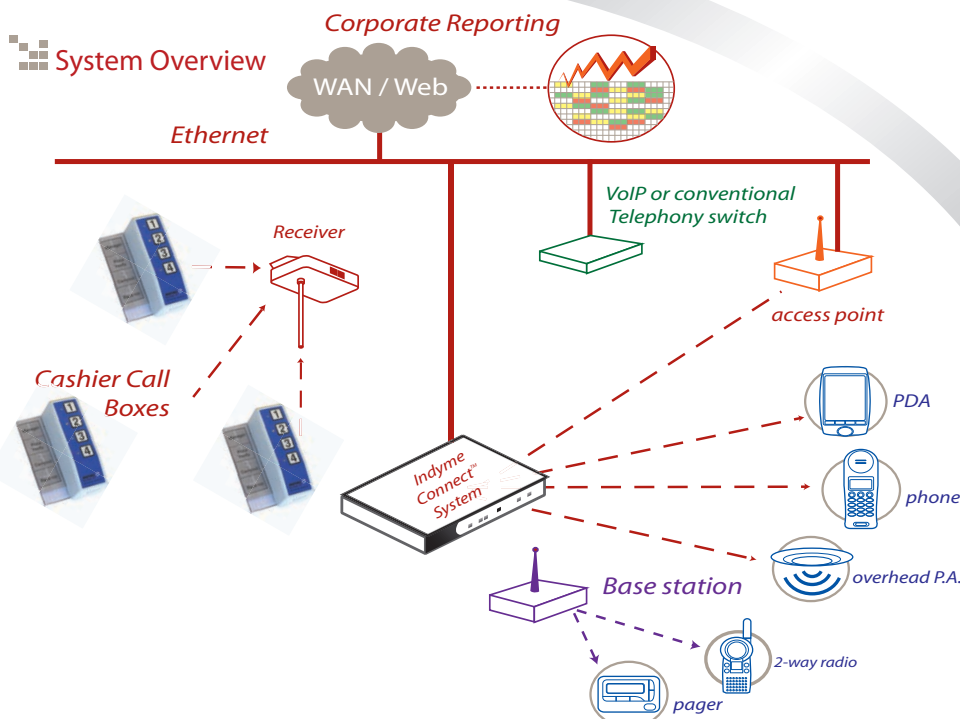

• Automatic or Manual Escalation

Configurable to escalate request messages until reset by responding personnel or to escalate upon repeated button presses.

Options available

1 button, 4 button and 12 button
