

COBS ALERT Systems™

C-2110 SECURITY

COBS C-2110 SECURITY handset

Features

Integrated alarm function

Staff working alone or in environments full of risks need the protection of an integrated alarm function. A large easily accessible red alarm button is placed on the top of the handset.

Robust, durable design

Staff working in rough environment must have a robust and durable handset. The handset is dust and water resistant according to IP64 classification.

Graphic display with time and date

The display has 4 lines for text and symbols. Max. 36 characters. Illuminated display with adjustable background light timer.

Rotated text in the display

This function makes it easier for staff to read a message when the handset is attached to a belt clip without loosen the handset from the clip.

Hands free

Allows to activate the hands free speech function when needed.

Answer button on headset

This is a feature that allows users to answer with the headset button when the handset rings.

Options for language

The handset has 6 menu languages (Swedish, English, German, French and Dutch) and possibility for other language.

Built in vibrator

For noisy environments or when discretion is required.

Telephone book

Memory for up to 65 numbers and redial function for the last 20 numbers.

User friendly menu

Navigation keys allows easy orientation in the user friendly menu system. For access to the most common functions there are soft keys that can be personalized.

Message function

Supported on COBS system.
