

The SB7 is made of a material resistant to sunlight and moisture. The button is equipped with two batteries, which allows it to work more than two years without replacing them.

When the button is pressed, both sound and indirect LED lighting inform the user of the signal being transmitted. The SB7 is waterproof rated to IP65.

## Specifications

| General             |                            |
|---------------------|----------------------------|
| Frequency           | 434.6500 MHz               |
| Frequency Stability | +/- 10 ppm                 |
| Data Rate           | 1800 bps                   |
| Channel Space       | 12.5 KHz                   |
| Modulation          | FSK (+/- 3KHz)             |
| Antenna             | PCB type                   |
| Output Power(Max.)  | 10 mW                      |
| Power Supply        | Coin Battery<br>CR2032 X 2 |
| Indicator(audio)    | No sound                   |
| Indicator(video)    | 2 LEDs (call indicator)    |
| Size(mm)            | 60 X 12.6                  |
| Weight(g)           | 29                         |
| Installation Method | Both-sided Tape            |

## Features

Water-Resistant- IP-8

Urethane upper case (Not scratch able)

Dual indicator LEDs

Maximized battery life time
