## EasyVu™ Table Service Location Solution

**The EasyVu System ensures that restaurants no longer need to waste time searching for guests**

- **Live Location**

*100% accuracy up to 250m outdoors and 125m indoors.*

- **Hotter Food**

*From kitchen, to table - without the wandering around! Choose the function that fits your venue - call customers back or table service.*

- **Quicker Service**

*Reducing the possibility of customer dissatisfaction.*

- **Minimised Wastage**

*Food that finds its owner faster, is less likely to be sent back.*

- **Faster Table Turns**

*Increased business, increased revenue. The map feature gives servers the option to create and navigate the venue, accurately and easily.*

- **Easy Installation**

*Pre-programmed, scalable system puts you in control. Its so simple, you can even install it yourself.*

- **Cost Effective**

*Measurable ROI allows you to see and understand the financial impact easily and clearly.*

- **Discreet and Professional**

*Fully customisable Table Tags direct servers to the guest quickly, silently and on demand.*

### EasyVu Value Propositions

Data log capability will help to analyse service and drive business

Capable of using multiple gateways to extend coverage

Unmatched Product Quality, Sales Support and Customer Service

# Why EasyVu

EasyVu is the industry pioneer that set the standard for locating guests, on the hospitality scene.

EasyVu exists today because of the CST Award-winning Vuze Table Location System which is used in over 2000 locations, worldwide.

EasyVu allows ALL customers the opportunity to maximize their guest experience in a cost-effective way

## Cost Effective

Less expensive than ANY high performing table location system on the market.

## Improved Efficiency

Deliver hot food hot and cold food cold - don't keep your guests waiting! Turn tables faster with timely orders. Improve efficiency and shave minutes of time off food delivery - save time, save money.

## Multi-functional Alerts

System can be used for table location or a paging system to ask guests to return to the counter themselves, giving you the flexibility of amending how you operate.

## Customer Experience

Offering your waiters solution to their 'finding a needle in a haystack' issue during busy times, will ease stress levels and improve the ambiance.

## Fully Scalable

No one knows your venue better than you do. Having the option to self-install means that its easy to get started at a time you choose. Expand the communications tech at your venue as and when you see fit.
